Master the high-end skills pivotal to developing, modifying and analysing financial models for projects in the oil and gas sectors. In an interactive, hands-on workshop environment you will go from a blank Excel workbook to a financial model suitable for investment analysis, debt structuring and operational scenario evaluation.

Financial Modelling Projects for Oil and Gas covers must-know topics such as funding mechanics, operation analysis and investment metrics. This powerful three-day course will give you a robust platform for in-depth analysis in the most sophisticated environments.

WHAT YOU WILL TAKE AWAY FROM THIS COURSE
- An industry best financial model with essential applications for project analysis across diverse project categories
- SMART best practice methodology rules and techniques that you can apply immediately strengthen your commercial project analysis
- A masterful understanding of essential Excel functionality for professional financial modelling and powerful shortcuts
- Compelling insights from recent market examples, group discussions and interactive workshops

IS THIS PROGRAMME FOR YOU?
Yes, if you need to build, review or analyse project finance models within the oil and gas sector. Typical attendees include analysts, managers, senior managers, associate directors, advisors, financiers and CFOs from project companies.

COURSE PREREQUISITES
You will need previous exposure to Excel in a financial modelling context and foundation knowledge of investment concepts such as NPV and cash flows.

KEY LEARNINGS
- Master best practice techniques for oil & gas project finance modelling
- Acquire skills to build a flexible and powerful scenario manager to analyse your project’s sensitivity to key drivers
- Learn how to develop a flexible tax and royalties framework adaptable to regional jurisdictions
- Gain skills to prepare trusted commercial outputs analysis tailored to investors and financiers, with a focus on valuation and risk
- Prepare flexible funding structures for analysing project finance debt and other funding sources

TRAINER SUPPORT HOTLINE
We view every training course as a long term commitment to course delegates. Our objective is not just to take you through the training and then leave you to your own devices - it is to fundamentally transform your Excel and financial modelling skills.

This is why your course fee includes post-course access to your trainer and the Corality Trainer Support Hotline.

It has always amazed me how Corality designs powerful and complex financial models in a very concise and elegant manner. I love the fact that one of Corality’s philosophies is to focus on simplicity. When I attended Corality’s course, I got a glimpse into the wizardry behind the elegance. No wonder they are the best at what they do!

Dr. Samyr Mezzour
Manager, Bearing Point

WHAT IS SMART FINANCIAL MODELLING?
